

Transparency of remuneration
policies in relation to the integration
of sustainability risks

Driv Kapitalforvaltning AS

Disclosure pursuant to

Regulation (EU) 2019/2088 Article 5

Introduction

Driv Kapitalforvaltning AS (**Driv**) is an alternative investment fund manager registered with the Norwegian Financial Supervisory Authority.

As a registered alternative investment fund manager, Driv is subject to Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (**SFDR**). In accordance with article 5 of SFDR, Driv is required to disclose on its websites information on how the remuneration policy is consistent with the integration of sustainability risks in the decision-making process.

As a registered (“sub-threshold”) AIFM, Driv has not adopted a remuneration policy pursuant to the Alternative Investment Fund Manager Directive, and no employees in Driv that have decision-making authority receive variable remuneration. As such, there are no misalignments between the remuneration practices of Driv and the integration of sustainability risks in the decision-making process.
